Hardware exchange for a dongleless license with EID version 2.8 or higher

Dear Sir or Madam,

we use software of the company EPLAN Software & Service GmbH & Co. KG.
This software is operating without a hardware dongle and has an activation paired to the hardware.

We will operate the EPLAN software on a different computer and require a new EID.
A regular revoking/rehosting process is no longer possible for the following reason (please tick):

- ☒ Previous hardware is no longer working (defective)
☐ Previous hardware is no longer available (lost/stolen)

The runtime of the EID for the new hardware is limited. EPLAN will provide an annual prolongation.

The terms of license will remain unaffected by this transfer.

We hereby confirm that the EPLAN software will not be used anymore in the future, even if the old hardware is available or functional again.

Customer ID:	EPLSNPPH4Y
Company name:	LHR Solar
Applicant's name:	Karthik Kurapati
Serial number of the license:	5b607e60-881f-40e2-af41-5054c51a50c5
